

## About Us

SL Fences is a young and dynamic company with innovative and creative solutions. We specialize in providing top-notch wired mesh fences that are designed to withstand even the harshest climates, including the challenging conditions found in Suriname. Our fences are constructed from galvanized metal, which provides excellent protection against rust and corrosion. On top of that we add a PVC coat that further enhance the durability and longevity of our fences, ensuring that they can withstand heavy use and exposure to the elements.

At our company, we understand that every customer has unique needs and preferences when it comes to fencing solutions. That's why we offer a wide range of wired mesh fence options to choose from, including different sizes, colors, and styles. Whether you need a fence for a residential, commercial, or industrial property, we have the expertise and resources to help you find the perfect solution for your needs.

When you work with us, you can expect not only high-quality fencing products, but also exceptional customer service and support. We are committed to providing our customers with personalized attention and guidance throughout the entire process, from selecting the right fence to installation if necessary.

So why choose our company as your wired mesh fence supplier? Because we offer the perfect combination of quality, durability, and customer service. Contact us today to learn more about our fencing solutions and how we can help you protect your property with a top-quality wired mesh fence.
